## About

### Profile

I'm a Web Developer and UX designer with an enthusiasm and motivation for creating effective and user-friendly Web applications. With my nine years of experience in Web development and design, and knowledge of electronic communication, I am able to create Web applications that cleverly meet the needs and desires of their users.

### Objective

I'm seeking a position in a progressive organization where I can fully utilize my passion for technology, creative ability, and development skills, while producing Web applications of the highest caliber.

### Travel

I'm seeking visa sponsorship, and ready and able for immediate relocation.

### Languages

English (Native), Korean (Beginner), Spanish (Beginner)
